

# Deburring, Edge Rounding & Polishing With Optional Dry Collector

BR800 | BR1000 | BR1300 | BR1600

Bed Width: 800mm Bed (1000, 1300 & 1600 available)

FROM

**\$49,000+GST**

Price of BR800 Linish Pro Solo

The BR series linishing machine can have 2 sanding belts for deburring, sanding rollers for edge rounding and a final polishing roller for the best metal finishing. The control system with touch screen controller allows for simple and repeatable programming. The machine comes as standard with a vacuum table on one side and 300mm wide magnetic table for small part finishing on the other (customisable when built to order).

## Features:

- 800, 1000, 1300 or 1600mm wide table
- Conveyor table with Vacuum, Magnetic or combination of both available.
- 2\* belt configuration for optimal deburring
- 4\* sand roller configuration for external and internal edge rounding
- Final polishing roller for the best machine finish
- 25m/min maximum speed
- Interlocking side doors
- Electronic touch screen controller
- Build in compressed air gun for hand cleaning

(From top left clockwise) User friendly touch screen controller, internal machine image, finished part as it exits the machine, safety interlock as side door opens, safety stop as hand enters the machine, part before finishing.

Technical Parameters	BR800	BR1000	BR1300	BR1600
<b>Working Width</b>	800mm	1000mm	1300mm	1600mm
<b>Min. Working Length</b>	300mm (or use a template/jig for smaller parts)

# ⚡ Koenig Machinery - Over 10 Years!

## Your Trusted Local Machine Solution Expert

### Australian-Based Sales, Service & Support You Can Rely On

For over 10 years, Koenig Machinery has been delivering best-in-class CNC laser solutions to businesses across Australia. With locally based technicians in Sydney, Melbourne and Brisbane, we provide nationwide coverage, ensuring our customers receive fast, reliable, and expert technical support whenever needed. Our Australian-based customer service and technical support teams operate from our Melbourne head office, delivering responsive assistance tailored to local business needs.

### Investment In Innovation & Customer Experience

At Koenig Machinery, we are committed to continuous investment in technology, facilities, and customer service. Australia's largest range of demonstration machines in our Brisbane, Sydney and Melbourne showrooms, where we feature the latest in CNC laser machinery, providing live demonstrations and a dedicated space for technology development. We believe in empowering our customers with firsthand experience of the precision, efficiency, and reliability that our machines offer.

### Strong Industry Partnerships & Long-Term Commitment

As a trusted supplier with industry-leading manufacturer relationships, we provide Australian businesses with high-quality CNC laser equipment designed for performance and durability. Our commitment to long-term customer relationships is reflected in our ongoing investment in technical staff, service and support teams, as well as enhanced marketing and management infrastructure. These strategic investments enable us to meet the growing demands of our expanding customer base across the Australian continent.

### Why Choose Koenig Machinery?

- Locally based Australian technicians covering the entire country.
- Australian-based technical support and customer service from our Melbourne head office.
- Over 10 years of trusted service to Australian businesses.
- Ongoing investment in a state-of-the-art Melbourne showroom with the latest CNC laser technology.
- Commitment to long-term partnerships with expanded service, support, and management capabilities.
- Experience the Koenig Machinery difference – your partner in precision and performance.

## ⚡ Services

### Machine Servicing

We offer scheduled maintenance and onsite service calls at reasonable rates. Our technicians work with you to maximize uptime and keep your business running economically.

### Technical Support

Enjoy free lifetime phone and email support by Australians in Melbourne, Sydney and Brisbane. We provide onsite assistance and technical support to help you identify the right solution.

### Operator Training

Our comprehensive on-site training ensures your team is confident in software, machine procedures, and maintenance. We empower you to run your equipment solo and successfully.

### Machine Installations

Highly trained technicians handle your professional installation, assembly, and leveling. We calibrate the machine system and settings specifically to your needs to ensure optimal performance

### Machine Consumable Warehouse

As a major Australian supplier, we stock over 100 varieties of acrylic sheets, laser plywood, nozzles, and lenses. One-stop sourcing ensures your production never stops.

### Machine Spare Parts Warehouse

Our local warehouses stock essential components like air compressors and water chillers. We ensure product compatibility and fast shipping Australia-wide to reduce your setup hassles.

## ⚡ Testimonials

Matthew Dawson

“Partnering with Koenig Machinery allowed us to internalise production, ensuring total quality control. Their 3kW GA Pro delivered immediate ROI, faster turnarounds, and complete engineering independence.”

**RMS Manufacturing, Victoria AUS**

“Koenig has been excellent. Their support is levels above the competition, and the 75% reduction in production time has transformed our business. We have no regrets.”

**SPS Drains, New South Wales AUS**

“Since installing our Koenig fiber laser, we’ve slashed lead times from weeks to days. Their local support and high-precision machinery have revolutionized our production efficiency.”

**Elanora Signs, New South Wales AUS**

“Koenig is a stable partner. Their support is a phone call away, and the efficiency is undeniable—our finishing time dropped from twenty hours to twenty minutes.”

**Maker Supplies, South Australia AUS**
