Price of BW630 Linish Pro Solo+

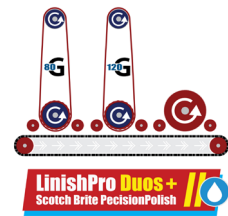

The Koenig FinishForce BW-Series (WetLine) is a new generation of widebelt sanding and linishing machines, designed to deliver precision, safety, and efficiency in professional metal finishing. Built for workshops and industrial production lines, the series offers processing widths from 630 mm up to 1600 mm, covering everything from small components to oversized panels.

Single Belt Linisher With Polish Roller

Twin Station Single Belt Linishing System

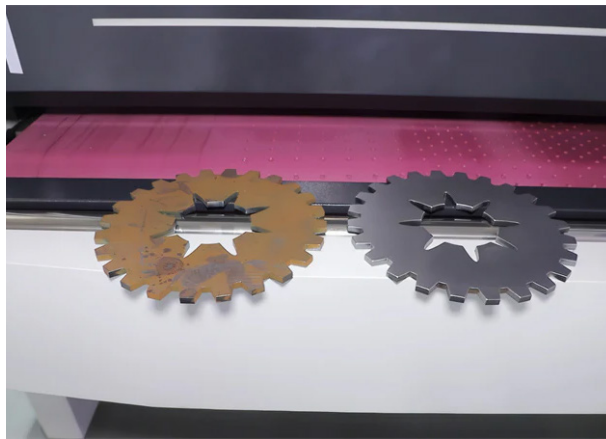

Twin Station Linisher With Polish Roller

Features:

- 630, 800, 1000, 1300 or 1600mm wide table
- Enclosed sanding chamber: Minimises overspray and enhances operator safety.
- Integrated Hydro Sanding Unit: Allows one-pass wet finishing across aluminium, stainless steel, copper, brass, magnesium alloys and more.
- Consistent surface flatness and finish, improving overall product quality across metals and composites.
- BW-Series (WetLine) introduces GripForce: a conveyor system purpose-built for wet widebelt sanding and polishing.
- Included WetForce Dust Collection System (5.5kW Motor): High-powered wet extraction removes dust and airborne particles during sanding.
- Water-Based Filtration: Traps dust and fumes at the source, protecting operators and equipment.

While perfectly suited for aluminum, the BW-Series is also ideal for stainless steel, magnesium alloys, copper, brass, bronze, mild/ carbon steel, and even non-metals like man-made stone, plastics, and acrylics. This versatility makes the series an essential solution for fabricators who demand consistent, high-quality finishes across diverse materials.

Technical Parameters	BW630	BW800	BW1000	BW1300	BW1600
Working Width	630mm	800mm	1000mm	1300mm	1600mm
Min. Working Length	300mm (or use a template/jig for smaller parts)				
Maximum Conveyor Speed	25m/min				
Machine Dimension (L x W x H mm) <i>Note: Dimensions shown are based on the maximum configuration (2 sanding belts + Scotch-Brite roller) and may vary depending on selected machine configuration.</i>	2270 x 1270 x 2130	2280 x 1870 x 2200	2280 x 1950 x 2200	2180 x 2150 x 2200	2180 x 2200 x 2350
Table Type	100% Magnetic				
Abrasive Belt Grit Options	80, 120, 180, 240, 320				
Sanding Configurations Specifications					
LinishPro Solo + Scotch-Brite Precision Polish Roller <i>1 Sanding belt and polish roller</i>					
Weight (kg)	1300	1700	1800	2200	3100
Power Supply	415V 50Hz 3 Phase - 40A	415V 50Hz 3 Phase - 50A	415V 50Hz 3 Phase - 50A	415V 50Hz 3 Phase - 60A	415V 50Hz 3 Phase - 90A
LinishPro Duos <i>2 Sanding belt only - no polish roller</i>					
Weight (kg)	1350	1750	1850	2300	3200
Power Supply	415V 50Hz 3 Phase - 25A	415V 50Hz 3 Phase - 60A	415V 50Hz 3 Phase - 60A	415V 50Hz 3 Phase - 90A	415V 50Hz 3 Phase - 110A
LinishPro Duos + Scotch-Brite Precision Polish Roller <i>2 Sanding belt and polish roller</i>					
Weight (kg)	1850	2250	2350	2800	3700
Power Supply	415V 50Hz 3 Phase - 50A	415V 50Hz 3 Phase - 80A	415V 50Hz 3 Phase - 80A	415V 50Hz 3 Phase - 110A	415V 50Hz 3 Phase - 130A

⚡ Koenig Machinery - Over 10 Years!

Your Trusted Local Machine Solution Expert

Australian-Based Sales, Service & Support You Can Rely On

For over 10 years, Koenig Machinery has been delivering best-in-class CNC laser solutions to businesses across Australia. With locally based technicians in Sydney, Melbourne and Brisbane, we provide nationwide coverage, ensuring our customers receive fast, reliable, and expert technical support whenever needed. Our Australian-based customer service and technical support teams operate from our Melbourne head office, delivering responsive assistance tailored to local business needs.

Investment In Innovation & Customer Experience

At Koenig Machinery, we are committed to continuous investment in technology, facilities, and customer service. Australia's largest range of demonstration machines in our Brisbane, Sydney and Melbourne showrooms, where we feature the latest in CNC laser machinery, providing live demonstrations and a dedicated space for technology development. We believe in empowering our customers with firsthand experience of the precision, efficiency, and reliability that our machines offer.

Strong Industry Partnerships & Long-Term Commitment

As a trusted supplier with industry-leading manufacturer relationships, we provide Australian businesses with high-quality CNC laser equipment designed for performance and durability. Our commitment to long-term customer relationships is reflected in our ongoing investment in technical staff, service and support teams, as well as enhanced marketing and management infrastructure. These strategic investments enable us to meet the growing demands of our expanding customer base across the Australian continent.

Why Choose Koenig Machinery?

- Locally based Australian technicians covering the entire country.
- Australian-based technical support and customer service from our Melbourne head office.
- Over 10 years of trusted service to Australian businesses.
- Ongoing investment in a state-of-the-art Melbourne showroom with the latest CNC laser technology.
- Commitment to long-term partnerships with expanded service, support, and management capabilities.
- Experience the Koenig Machinery difference – your partner in precision and performance.

⚡ Services

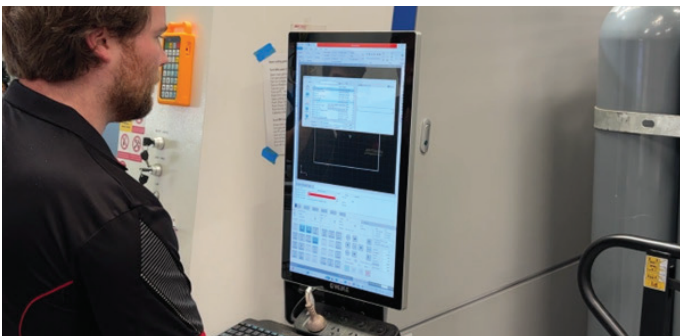

Machine Servicing

We offer scheduled maintenance and onsite service calls at reasonable rates. Our technicians work with you to maximize uptime and keep your business running economically.

Technical Support

Enjoy free lifetime phone and email support by Australians in Melbourne, Sydney and Brisbane. We provide onsite assistance and technical support to help you identify the right solution.

Operator Training

Our comprehensive on-site training ensures your team is confident in software, machine procedures, and maintenance. We empower you to run your equipment solo and successfully.

Machine Installations

Highly trained technicians handle your professional installation, assembly, and leveling. We calibrate the machine system and settings specifically to your needs to ensure optimal performance

Machine Consumable Warehouse

As a major Australian supplier, we stock over 100 varieties of acrylic sheets, laser plywood, nozzles, and lenses. One-stop sourcing ensures your production never stops.

Machine Spare Parts Warehouse

Our local warehouses stock essential components like air compressors and water chillers. We ensure product compatibility and fast shipping Australia-wide to reduce your setup hassles.

Koenig Machinery

⚡ Testimonials

Matthew Dawson

“Partnering with Koenig Machinery allowed us to internalise production, ensuring total quality control. Their 3kW GA Pro delivered immediate ROI, faster turnarounds, and complete engineering independence.”

RMS Manufacturing, Victoria AUS

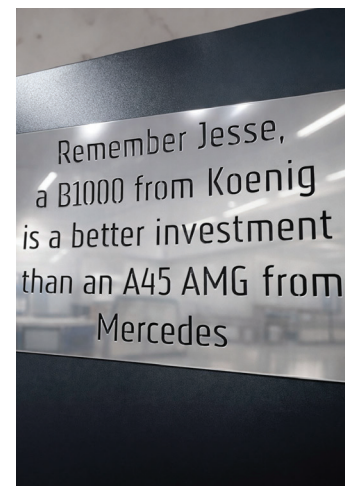

“Koenig has been excellent. Their support is levels above the competition, and the 75% reduction in production time has transformed our business. We have no regrets.”

SPS Drains, New South Wales AUS

“Since installing our Koenig fiber laser, we’ve slashed lead times from weeks to days. Their local support and high-precision machinery have revolutionized our production efficiency.”

Elanora Signs, New South Wales AUS

“Koenig is a stable partner. Their support is a phone call away, and the efficiency is undeniable—our finishing time dropped from twenty hours to twenty minutes.”

Maker Supplies, South Australia AUS
