

30T Force - 1250mm Length

WADG-30T/1250

FROM

\$46,950_{+GST}

**CNC Electric
Press Brakes**

The WADG-30T/1250-AU CNC Electric Press Brake is the largest model in the range, designed for workshops that require greater bending capacity without sacrificing accuracy or efficiency. With 30 tonnes of bending force and a 1250 mm working width, it enables the processing of larger sheet metal parts and longer bend lengths.

Featuring the Cybelec CT8 touchscreen control, operators can easily program and control the Y, X and R axes for precise and repeatable results. The dual back-stops are CNC controlled for height and depth and manually adjusted for left/right positioned for flexible setups for a variety of jobs, making this machine a versatile solution for fabrication workshops, production environments, and specialised metal forming tasks. Safety light curtains included as standard (DSP upgrade option available).

Technical Parameters	Specification
Bending Force	30T
Bending Length	1250mm
Approaching Speed	250mm/s
Working Speed	0.15 – 30 mm/s
Return Speed	250mm/s
X-Axis Stroke	400mm
X-Axis Speed	500mm/s
R-Axis Stroke	150mm
R-Axis Speed	200mm
Distance Between Columns	900mm
Throat Depth	250mm
Stroke	150mm
Open Height	420mm
Main Motor	20kW
Machine Weight	4.3 Ton
Overall Dimensions	1460 x 1660 x 2470 mm
Components	Brand/Details
Main Servo Motor	Italy Physis
Rear Stopper Linear Guide	HIWN
Rear Stopper Ball Screw	HIWIN
Heavy Duty Ball Screw	Germany IF
Electrical Components	Schneider
Bearing	Japan NACHI
CNC System	Cybelec
Timing Belt	Italy MACO
Equipment Working Environment	Parameters
Power Requirements	Three-phase four-wire system, 380V, 50Hz
Maximum Temperature	40°C
Minimum Temperature	-5°C
Relative Humidity	55–85%
Machine Noise Measurement	LPA ≤82 dB(A), LWA ≤94 dB(A)
Machine Standards	GB 17120-2012 / GB/T 34376-2017 / Q/320585 DTM 01-2017

⚡ Koenig Machinery - Over 10 Years!

Your Trusted Local Machine Solution Expert

Australian-Based Sales, Service & Support You Can Rely On

For over 10 years, Koenig Machinery has been delivering best-in-class CNC laser solutions to businesses across Australia. With locally based technicians in Sydney, Melbourne and Brisbane, we provide nationwide coverage, ensuring our customers receive fast, reliable, and expert technical support whenever needed. Our Australian-based customer service and technical support teams operate from our Melbourne head office, delivering responsive assistance tailored to local business needs.

Investment In Innovation & Customer Experience

At Koenig Machinery, we are committed to continuous investment in technology, facilities, and customer service. Australia's largest range of demonstration machines in our Brisbane, Sydney and Melbourne showrooms, where we feature the latest in CNC laser machinery, providing live demonstrations and a dedicated space for technology development. We believe in empowering our customers with firsthand experience of the precision, efficiency, and reliability that our machines offer.

Strong Industry Partnerships & Long-Term Commitment

As a trusted supplier with industry-leading manufacturer relationships, we provide Australian businesses with high-quality CNC laser equipment designed for performance and durability. Our commitment to long-term customer relationships is reflected in our ongoing investment in technical staff, service and support teams, as well as enhanced marketing and management infrastructure. These strategic investments enable us to meet the growing demands of our expanding customer base across the Australian continent.

Why Choose Koenig Machinery?

- Locally based Australian technicians covering the entire country.
- Australian-based technical support and customer service from our Melbourne head office.
- Over 10 years of trusted service to Australian businesses.
- Ongoing investment in a state-of-the-art Melbourne showroom with the latest CNC laser technology.
- Commitment to long-term partnerships with expanded service, support, and management capabilities.
- Experience the Koenig Machinery difference – your partner in precision and performance.

⚡ Services

Machine Servicing

We offer scheduled maintenance and onsite service calls at reasonable rates. Our technicians work with you to maximize uptime and keep your business running economically.

Technical Support

Enjoy free lifetime phone and email support by Australians in Melbourne, Sydney and Brisbane. We provide onsite assistance and technical support to help you identify the right solution.

Operator Training

Our comprehensive on-site training ensures your team is confident in software, machine procedures, and maintenance. We empower you to run your equipment solo and successfully.

Machine Installations

Highly trained technicians handle your professional installation, assembly, and leveling. We calibrate the machine system and settings specifically to your needs to ensure optimal performance

Machine Consumable Warehouse

As a major Australian supplier, we stock over 100 varieties of acrylic sheets, laser plywood, nozzles, and lenses. One-stop sourcing ensures your production never stops.

Machine Spare Parts Warehouse

Our local warehouses stock essential components like air compressors and water chillers. We ensure product compatibility and fast shipping Australia-wide to reduce your setup hassles.

Koenig Machinery

⚡ Testimonials

Matthew Dawson

“Partnering with Koenig Machinery allowed us to internalise production, ensuring total quality control. Their 3kW GA Pro delivered immediate ROI, faster turnarounds, and complete engineering independence.”

RMS Manufacturing, Victoria AUS

“Koenig has been excellent. Their support is levels above the competition, and the 75% reduction in production time has transformed our business. We have no regrets.”

SPS Drains, New South Wales AUS

“Since installing our Koenig fiber laser, we’ve slashed lead times from weeks to days. Their local support and high-precision machinery have revolutionized our production efficiency.”

Elanora Signs, New South Wales AUS

“Koenig is a stable partner. Their support is a phone call away, and the efficiency is undeniable—our finishing time dropped from twenty hours to twenty minutes.”

Maker Supplies, South Australia AUS
