

170-800T Force - 5000 Or 6000mm Length

WAD-170-800T/5000-AU

FROM

\$139,900^{+GST}

Tonnage: 170T to 800T

Axes: 6+1 Axes or 8+1 Axes

Press Length: 5000mm (Optional 6000mm)

Controller: Delem DA66S or DA69S

Our NEW 5000mm CNC Press Brake is available in a wide range of tonnage options, from 170T right through to 800T capacity, making it suitable for everything from heavy-duty fabrication to large-format bending applications. As standard, our CNC press brakes are supplied with 6+1 axis control, pairing perfectly with the advanced Delem DA-66S or Delem DA-69S controllers.

Technical Parameters		Unit	Specification
Bending Force		kN	110T, 135T, 170T, 220T, 250T, 300T, 400T, 600T, 800T
Max. Bending Length		mm	5000
Throat Depth		mm	450
Stroke		mm	200
Opening Height		mm	480
Fast Speed		mm/s	160
Working Speed		mm	11.5
Return Speed		mm	135
Axis Specifications	Slider Repeat Accuracy	mm	≤±0.03
	Slider Positioning Accuracy	mm	≤±0.03
	Repeat Position Accuracy of Back Gauge	mm	≤±0.05
	Workpiece Straightness Error	mm/m	0.5
	Bend Angle Error	°	≤±0.05
	Grating Ruler Resolution	mm	0.005
Hydraulic Oil Standard			#46/68 Anti-wear hydraulic oil
Oil Tank		L	260
Main Motor		kW	15 (170T), 18.5 (220T), 22 (250–300T), 30 (400T), 45 (600T), 60 (800T)
Total Machine Power		kW	From 15.1kW (110T 6+1axes) to 59.1kW (800T 8+1axes)
Weight		Ton	13-15
Dimensions		L x W x H mm	110T – 5000×1800×2350 135T – 5000×1800×2450 170T – 5000×2000×2540 220T – 5000×2200×2540 250T – 5000×2000×2700 300T – 5000×2300×3100
Power Supply			3-phase 415V, 50Hz, 20–60A connection (12.7–51A consumption depending on model)

WAD-AU Range Features

CNC Servo-Hydraulic Press Brake

Together with AHD machine tool, we have developed this range of CNC Hydraulic Press Brakes for the growing Australian Manufacturing market. These precision and easy to use Press Brakes will pair perfectly with our range of Fiber laser machines, bringing full production control back to your manufacturing floor, where the programming and skills can be maintained in the office.

Features:

- Independent Y1 and Y2 axis.
- Upper beam rails designed in a way that allows the bending load to be off-centre. The beam position is monitored by two independent linear encoders that provide feedback to the controller.
- Whole frame welded and tempered to eliminate any internal stress.
- Three-dimensional machined manufactured in a single process, to ensure geometrical precision and therefore bending accuracy.
- Hydraulic pump driven by VSD, which:
 - Reduces energy consumption by 60%.
 - Reduces noise, especially when sitting idle.
 - Reduces oil temperature fluctuations which translates in higher bending consistency/repeatability
- Main chassis components have been designed and tested with FEA
- Hydraulic Valve HAWE from Germany
- Hydraulic Gear Pump Rexroth from Germany
- Linear Encoder = Givi from Italy
- Main Motor Estun/Innovance from China
- Electrical Components Schneider from France
- Crowning Automatic Crowning servo from China
- Ball Screw and Linear Guide PMI/PYM from Taiwan

Controller Options Explained

Delem DA-66S

The DA-66S offers 2D programming that includes automatic bend sequence calculation and collision detection. Full 3D machine set-up with multiple tool stations, giving true feedback on the product feasibility and handling.

Features:

- 24" high resolution colour Touchscreen
- 2D graphical touch screen programming
- 3D machine representation and simulation
- Profile-S2D offline software

Delem DA-69S

The DA-69S offers 2D as well as 3D programming/ file importing that includes automatic bend sequence calculation and collision detection. Full 3D machine set-up with multiple tool stations giving true feedback on the product feasibility and handling. Highly effective control algorithms optimise the machine cycle and minimise set-up time. This makes using press brakes easier, more efficient, and more versatile than ever.

Features:

- 24" high resolution colour Touchscreen
- 2D & 3D graphical touch screen programming
- 3D visualiation, machine representation and simulation
- Profile-S3D offline software

⚡ Koenig Machinery - Over 10 Years!

Your Trusted Local Machine Solution Expert

Australian-Based Sales, Service & Support You Can Rely On

For over 10 years, Koenig Machinery has been delivering best-in-class CNC laser solutions to businesses across Australia. With locally based technicians in Sydney, Melbourne and Brisbane, we provide nationwide coverage, ensuring our customers receive fast, reliable, and expert technical support whenever needed. Our Australian-based customer service and technical support teams operate from our Melbourne head office, delivering responsive assistance tailored to local business needs.

Investment In Innovation & Customer Experience

At Koenig Machinery, we are committed to continuous investment in technology, facilities, and customer service. Australia's largest range of demonstration machines in our Brisbane, Sydney and Melbourne showrooms, where we feature the latest in CNC laser machinery, providing live demonstrations and a dedicated space for technology development. We believe in empowering our customers with firsthand experience of the precision, efficiency, and reliability that our machines offer.

Strong Industry Partnerships & Long-Term Commitment

As a trusted supplier with industry-leading manufacturer relationships, we provide Australian businesses with high-quality CNC laser equipment designed for performance and durability. Our commitment to long-term customer relationships is reflected in our ongoing investment in technical staff, service and support teams, as well as enhanced marketing and management infrastructure. These strategic investments enable us to meet the growing demands of our expanding customer base across the Australian continent.

Why Choose Koenig Machinery?

- Locally based Australian technicians covering the entire country.
- Australian-based technical support and customer service from our Melbourne head office.
- Over 10 years of trusted service to Australian businesses.
- Ongoing investment in a state-of-the-art Melbourne showroom with the latest CNC laser technology.
- Commitment to long-term partnerships with expanded service, support, and management capabilities.
- Experience the Koenig Machinery difference – your partner in precision and performance.

⚡ Services

Machine Servicing

We offer scheduled maintenance and onsite service calls at reasonable rates. Our technicians work with you to maximize uptime and keep your business running economically.

Technical Support

Enjoy free lifetime phone and email support by Australians in Melbourne, Sydney and Brisbane. We provide onsite assistance and technical support to help you identify the right solution.

Operator Training

Our comprehensive on-site training ensures your team is confident in software, machine procedures, and maintenance. We empower you to run your equipment solo and successfully.

Machine Installations

Highly trained technicians handle your professional installation, assembly, and leveling. We calibrate the machine system and settings specifically to your needs to ensure optimal performance.

Machine Consumable Warehouse

As a major Australian supplier, we stock over 100 varieties of acrylic sheets, laser plywood, nozzles, and lenses. One-stop sourcing ensures your production never stops.

Machine Spare Parts Warehouse

Our local warehouses stock essential components like air compressors and water chillers. We ensure product compatibility and fast shipping Australia-wide to reduce your setup hassles.

Koenig Machinery

⚡ Testimonials

Matthew Dawson

“Partnering with Koenig Machinery allowed us to internalise production, ensuring total quality control. Their 3kW GA Pro delivered immediate ROI, faster turnarounds, and complete engineering independence.”

RMS Manufacturing, Victoria AUS

“Koenig has been excellent. Their support is levels above the competition, and the 75% reduction in production time has transformed our business. We have no regrets.”

SPS Drains, New South Wales AUS

“Since installing our Koenig fiber laser, we’ve slashed lead times from weeks to days. Their local support and high-precision machinery have revolutionized our production efficiency.”

Elanora Signs, New South Wales AUS

“Koenig is a stable partner. Their support is a phone call away, and the efficiency is undeniable—our finishing time dropped from twenty hours to twenty minutes.”

Maker Supplies, South Australia AUS
